## **PRESS RELEASE**

### **North Marin Water District Appoints New Director**

At a special meeting held on February 8, 2017 the North Marin Water District appointed Novato resident Michael Joly, to the Board of Directors filling a vacant position created by the resignation of previous director Dennis Rodoni. Mr. Joly's appointed term, will expire in December 2017.

Mr. Joly is a 68 year old retired investment banker who has lived in Novato and been a NMWD customer since 1983. Director Joly stated his qualifications as his 35 year residency in Novato, personal commitment to best water uses, deep working experience in professional financial matters and attendance at almost every NMWD Board meeting since June 2015. He further stated his appreciation of the appointment as an honor and duty to best represent all stakeholders of NMWD especially the customers and all citizens of the service territory and NMWD staff.

The North Marin Board interviewed six candidates for the position and noted they were pleased to have such a large field of qualified applicants from which to choose although it made the selection difficult. The other candidates considered were Donald Brand, Gary Butler, James Grossi, Rhonda Kutter and Richard Paulson.
